

PRINCIPLES

The fundamental principle behind SuperConnection is that we are ONE with the Mind of SPIRIT, All That Is, God, Creator, Universal Energy. (Each individual's name for that omnipotent presence is a result of location in the world and cultural upbringing.)

SuperConnection believes that we are all ONE, created by a Supreme Being (Mind of SPIRIT) and that we exist in that Mind.

SuperConnection does not believe in separation, nor that one religion is "better" than another.

SuperConnection is not a religious cult and will not try to change your personal beliefs nor indoctrinate you into a particular way of thinking. SuperConnection will give you other possibilities for consideration and leave you free to make your own choices.

SuperConnection believes that Love and Gratitude are the two most powerful energy forces in the Universe.

SuperConnection believes that we are spiritual beings having a physical existence on a material planet for the learning and growth of our soul.

SuperConnection believes that we are the creators of our own lives and destinies, having been given consciousness and freewill by our Maker.

SuperConnection believes that the soul/spirit lives on after what we term “death” and that we return to the non-material realms where we undertake further learning.

SuperConnection believes in reincarnation, which is a mechanism through which we choose to experience different lifetimes in different places.

SuperConnection believes that we are made up of many different energetic aspects, all of which influence each other and can hold fear-based or negative energy that can upset the balance of the whole.

SuperConnection believes that we access three levels of mind: subconscious, conscious and superconscious, through which we interact with our physical world and the non-material realms.

SuperConnection believes that by using our superconscious mind we can effectively ask for and create change within our lives and the lives of others.

*“Self-reverence, self-knowledge, self-control:
these three alone lead one to sovereign power.”*
