

CANDLELIGHT

I kindle this little light on the earth plane;
I dedicate it to the service of Spirit.
I guard and cherish this flame as a living symbol;
an act of faith in the reality of the Powers of Light.

May the beings from higher worlds see this flame
and kindle its counterparts on the ethereal plane.
May this ethereal light be a channel for the inflow
of the healing powers of the spirit.

May the love of Christ permeate this building and protect it,
warming the hearts and enlightening the understanding
of all that live in it or enter it.

May the being who we know as Michael,
Standard bearer of the Christ, Wielder of the Sword of Light,
use this offering linking it with all those who lit the light.

May peace and healing
spread through the world
and the regions
of the borderland.
