

THE SEARCH

I searched for the truth everywhere
And it never could be found.
I looked only without –
where opinions and knowledge abound.

When all beliefs are unlearned
and knowledge is left behind,
ego sleeps, duality ceases
as you go inward to find
pure energy flowing where
divisions cease to be.

No measures of time
no parameters of space
interfere with Infinity.
Free of boundaries
God is present
everywhere at the same time.

My cells - a model of my galaxy
are a perfect paradigm.
I feel limitless expansion
as my universe is moving
in a single heartbeat or breath.

No more theory –
experience is proving
I contain the imprint of all life;
all Universes
for all eternity.

Dichotomy ends as Spirit grows
Feeling "I AM" as
Oneness with Infinity.
